## Recode Video to iPod®

In this tutorial you can follow the step by step procedure for recoding a video for iPod® in Nero Recode.

The following requirements have to be fulfilled:

- You have started Nero Recode.
- You have stored a video on your PC or you have inserted a DVD into your drive.
- You have connected the iPod® to your computer.
- You have installed iTunes® on your computer.

To recode a video, proceed as follows:

1. Select the **Recode Main Movie to Nero Digital™** task in the **Nero Recode** start screen.  
→ The **My Nero Digital™ Movie Backup** screen is displayed.
2. Click the **Import DVD** button.  
→ The **Find Folder** dialog box opens.
3. Select the drive or hard drive folder which has the video in it (e.g. F:\ drive) and click the **OK** button.  
→ The video is analyzed and imported.  
The capacity bar at the bottom of the screen displays how large the imported files will be.  
If the source file is larger than the target medium then the middle section of the **DVD-Video Files** tab displays how the DVD can be recoded to match the selected profile.

Screen **My Nero Digital Movie Backup**

4. In the **Profile Category** drop-down menu, select the **Apple® iPod®** entry.  
→ A window informs you that the encoder settings for the respective profile will be set to the standard value.
5. Click the **OK** button.

Screen **My Nero Digital Movie Backup** with **Apple® iPod®** profile

6. Make sure that you select the **iPod/iPhone AVC** entry in the **Profile** drop-down menu.
7. Click the **Next** button to define the burn settings.
  - The **Burn Settings** screen appears.
8. Select your **iPod®** in the **Target** drop-down menu
9. Click the **Burn** button to start the recoding process.
  - A window will point out an option in **iTunes®** that must be activated to save the video to the **iPod®**.
10. Check the setting in **iTunes®** and confirm with **OK**.
  - The burn process begins.
  - The **Recoding and Burning** screen is displayed and you can follow the process with the progress bar.
  - The recoding process is complete when the relevant message appears in the information window.
11. Decide if you want to save a log file of this process.
  - You have recoded a video for the **iPod®**.
  - The **Next** button takes you to the **What do you want to do now?** screen, where you can select the other options or close Nero Recode.
